

WHERE CASES STOP, BY COUNTY

 Every executed case writes here

Observed bottlenecks (illustrative)

Workforce	41%
Execution	18%
Funding	12%
Provider capacity	9%

household to county to state to national

DATA-DIRECTED NEW SUPPLY

Pre-health students

900+ pilot applicants

Recruit, screen, vet

availability and fit

Licensed provider

hires, trains, supervises

New care capacity

in the county that lacked it

Longitudinal worker record: hours, credentials, evaluations, reliability, and references

placement outcomes feed back to targeting
